

Professional Summary

A Motivated Software Developer and B. Tech (CSE) student with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, and Full Stack Development (MERN). Gaining experience in building scalable web applications and REST APIs using React.js, Node.js, and MongoDB. Solved 250+ DSA problems, focusing on writing optimized and efficient code. Currently expanding skill set in DevOps fundamentals (CI/CD, Docker, deployment) and actively building real-world projects.

Skills

- Languages:** Java, C, Python
- Frontend:** React.js, Next.js, HTML/CSS, Tailwind CSS, JavaScript
- Backend:** Nodejs, MongoDB, SQL
- Tools:** Git, GitHub, Visual Studio Code, Postman, Canva
- Soft Skills:** Teamwork, Critical Thinking, Leadership, Communication

Experience

- In-Campus Bootcamp Training – Sharda University** May 2025 – June 2025
- Completed intensive training in Data Structures & Algorithms with hands-on practice of LeetCode problem solving.
 - Developed capstone projects and multiple smaller projects demonstrating full-stack concepts.
 - Participated in mock interviews, aptitude training, and group discussions.
 - Collaborated with peers in a team environment, simulating real-world project development.

Projects

- AI-Powered Interview Practice Platform |** React JS, Node JS, REST API, MongoDB January 2026 - Present
- Creating an AI-based interview practice kit with questions based on roles and resumes.
 - Use the AI system for assessment and feedback on accuracy, communication of ideas, and confidence.
 - Interview history and performance analytics tracking through React.js, Node.js, Express.js, MongoDB, and AI APIs.
 - Currently integrating DevOps practices including CI/CD pipelines and containerization (Docker) for streamlined deployment

- Alumni Network Platform |** React JS, Node, Express JS, REST API, MongoDB September, 2025
- Designing a role-based application connecting students and alumni for networking, mentoring, and career counselling.
 - Implemented features like real-time messaging, event listings, posts, profile management, and secure authentication.
 - Utilized MongoDB for scalable data storage, backend APIs for security, and a responsive UI for accessibility.

- Job Board |** React JS, JavaScript, HTML, CSS June, 2025
- Built a job listings portal with search, filter, and category-based browsing.
 - Designed a responsive and simple UI with job cards for better user experience.
 - Leveraged React.js to create dynamic and reusable components for scalability.

Achievements

- Practiced 250+ DSA problems across multiple platforms, tracked through Codolio, strengthening algorithmic thinking and coding efficiency.
- Earned certification in Java Fundamentals from Oracle Academy, demonstrating proficiency in core Java concepts.
- Used Git and GitHub to collaborate on beginner-level projects, managing code through commits and repositories.
- Currently undertaking certified courses in Java Programming and Introduction to Full Stack Development.
- Currently learning DevOps fundamentals, including CI/CD pipelines, Docker, and deployment strategies.

Education

B. Tech (CSE), Sharda University	CGPA: 8.495	Aug 2023-Present
(Class XII), ISC – St. George’s College	83%	2022
(Class X), ICSE – St. George’s College	92%	2020
